

W0000000.014.12.2022

Wroclaw, 07.03.2022.

Dear Friends,

Please accept our sympathy and solidarity at this difficult time for your country. At the same time we declare that we stand on the side of Ukraine, whose territorial integrity has been violated in such a brutal way and in violation of international law.

University of Environmental and Life Sciences prepared an educational offers for Ukraine reseachers. All details, including contacts to persons responsible for individual projects, can be found on our website:

<https://upwr.edu.pl/en/research/offers-for-ua-reseachers>

I hope it will be at least a small support in this very difficult and painful time for you. Moreover please remember that we are able to provide accommodation for your students, doctoral students and researchers. We offer full support to your academic community. Please remember that you can count on us. As an academic community with shared values, we need to stick together.

Your sincerely,

Anna Chelmońska-Soyta

Vice-Rector for Internationalization
